---

Hello,

With a proposal of 100 to file a Trademark Dispute. This will bring so much harm to the market and to smaller individuals and groups.

I seriously hope that the powers that be are not being influenced by big companies that are trying to pull one over on us.

Please don't do this. Keep it free so people can challenge things like Michigan University trying to trademark "the" or Lebron James "taco tuesday". These are the people that should be getting things harder for themselves.

Thank you  
Chris Martinez
