Subject: Support for Director Iancu's proposals to: Jettison the Broadest Reasonable Interpretation (BRI) of claim construction, and apply the Phillips claim construction for issued patents.
Date: Thursday, June 28, 2018 3:19:16 AM

Dear sir/madam

As a boutique portfolio manager and investor in USA's innovative technology companies since 1994 I am writing to **strongly** support Director Iancu's proposals to:

Jettison the Broadest Reasonable Interpretation (BRI) of claim construction, and apply the Phillips claim construction for issued patents.

Take into account prior claim constructions from prior proceedings at the PTAB or district court.

If these proposals are not implemented I will no longer recommend to clients that they invest in innovative development stage USA technology stocks such as Virnetx.

Yours sincerely,

Denis Trotman
