Subject: I Support USPTO's PTAB Proposal
Date: Monday, July 2, 2018 10:40:26 PM

Dear Sir or Madam,

The current system of disparate standards in interpreting claims has led to a mess of inconsistent decisions and huge financial burdens on innovators trying to protect their IP.

The USPTO's proposal to reform the PTAB process would be a helpful step in restoring patent rights for American inventors. I urge you to finalize and implement this proposal as soon as possible.

Sincerely,

John Gross
