Subject: Denver

Please consider locating a satellite office in Denver. The location will certainly improve the recruitment of patent examiners and enhance patent examiner retention. Denver has a highly educated population and a reasonable cost of living. People tend to relocate here intentionally, in many instances for the quality of life, and stay here because they are pleased with living here. I also understand that there is federal office space available in the metro area. There are other compelling reasons that have been put forth by the team that has been lobbying for a Denver location. I urge your consideration.

Thank you,

K Kalan | Attorney
