Subject: Support for a Boise Office

Dear Patent Office Professionals,  
As a fairly new transplant to Boise from Washington, DC, I would like to add my support for a US Patent Office satellite campus here in Boise. I worked in the shadows of your national office buildings in Arlington, VA for ten years before coming to Boise. I was so positive on Boise, it's quality of life, culture of innovation, and business friendly nature, that it was an easy life decision to come here. I now run the largest business organization in Idaho; the Boise Metro Chamber of Commerce. I have attached my personal story of "coming to Boise" from a local newspaper article which ran after my arrival here.

Myself, and any community leader that you may want to talk to, stand ready to answer your questions. I would be happy to personally visit with you anywhere, or anytime, about what makes this one of the best communities in the nation. I hope you'll give our city a good look, and serious consideration for your project. Best wishes, have a great weekend!  
BC
